Responsible Luxury

Travel with a lighter footprint

At Crystalbrook Collection Hotels and Resorts we aspire to protect the environment and create sustainable experiences that enhance, rather than compromise the guest experience.

- We have replaced traditional plastic guest room key cards with wooden keycards, made from 100% recycled wood.
- We've said no to plastic water bottles and instead offer biodegradable and reusable glass bottles, removing more than 375,000 plastic bottles each year.
- Small plastic bathroom amenity bottles have been replaced with Crystalbrook Immersion large pump bottles. By using large pump bottles, we save approximately 1.9 million bottles from going into landfill each year!
- Our straws, disposable bags and takeaway containers are plastic-free, made from corn, sugar cane and related environmentally friendly and fully degradable materials.
- Through the use of technology, such as in-room iPads, we have removed an estimated 90% of the paper found in a typical five-star hotel room.
